ElderONE is Rochester Regional Health’s Program of All-Inclusive Care for the Elderly (PACE), which also qualifies as a New York State managed long-term care program, allowing you to enjoy the comforts of home as you move into the next phase of your life.

As the area’s only PACE program, ElderONE offers an innovative approach that provides the next level in home healthcare for seniors. We work with you to make sure you can still enjoy your independence, but also access highly coordinated medical, rehabilitation, social and personalized care services in partnership with your care team at one of our four convenient PACE Centers.

ElderONE also provides peace of mind to caregivers who want to know that their aging loved ones are receiving high-quality, attentive care while they are afforded time to focus on the daily needs of themselves and other family members.

ElderONE PACE Centers play a key role in allowing you to live in your home and still enjoy the best in healthcare. The ElderONE care teams are located at our four PACE centers, providing medical and rehabilitation services. The centers are vibrant communities, offering individual and group activities, as well as serving hot meals.

Specialized Care
As you move into your next phase of life, an ElderONE geriatric physician, who is specially trained in the aging process, will be there to take on the role of primary care physician and provide the next level of care you need.

Personalized Care
Personalized care plans enable you – and your family members – to work with the team to identify the services you need for your individualized care plan, and plans are reviewed and updated as your requirements evolve.

Coordinated Care
Staying home is important to you and so is your daily routine. Our team works to provide coordinated care designed to avoid disrupting that routine. Everyone from our geriatric physicians, therapists and personal care assistants to the drivers that transport you to your scheduled appointments are part of an interdisciplinary care team dedicated to keeping you at home.

Comprehensive Home Care
Comprehensive home care helps participants live independently, comfortably and safely at home. Services may include skilled nursing care, personal care, therapy, home delivered meals and social services.

Additional PACE Program Benefits Include:
- Consumer Directed Personal Assistance Program (CDPAP/CDPAS)
- Community First Choice Option (CFCO)
- Diabetes Prevention

Are you a resident of Monroe, Wayne or Ontario County; age 55 and older and in need of a nursing home level of care? If so, you may be eligible for ElderONE. Eligible participants must be in need of community-based, long-term care for more than 120 days and be able to live safely at home.

### Responsibility for Program Payment

All services provided to ElderONE participants are provided by ElderONE, an affiliate of Rochester Regional Health. Participants may be liable for the costs of unauthorized or out-of-PACE program agreements.

Conflict Free Evaluation and Enrollment Center (CFEEC) is a program of New York State Medicaid which determines your eligibility to join a Managed Long Term Care Plan (MLTC). If you are a Medicaid beneficiary or are pending Medicaid and wish to enroll in ElderONE, you must first contact the CFEEC at 855-222-8350 to arrange for an evaluation.

ElderONE will not discriminate on the basis of race, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, age, mental or physical disability, or source of payment.
